1.0. MESSAGE FROM REGIONAL CHAIRPERSON

These past 2 years have been a testing time for everyone, particularly those who have lost relatives and friends or have struggled with the health impacts of COVID-19. Across Morogoro Region and beyond we have pulled together to support our people and the communities in which we live and work, to help each other get through these challenging times.

I want to thank all of my fellow TAS Members for their decision made on 6th November 2021 during Annual General meeting to trust me again to serve TAS Morogoro for the second term as Regional Chairperson. I am honored by the trust which you have nevertheless seen fit to place in me today. I will do everything I can not to betray that trust and to give our organization a powerful voice.

And on behalf of everyone at TAS Morogoro I would also like to thank the front-line board members, Staff and volunteers who have been helping us in countless ways, as well as the members and stakeholders all over the world who have empowered and supported People with albinism and other with disabilities. Their supports and assistance are highly appreciated.

In the 2 years of Covid 19 when economic conditions were tough, I'm proud that TAS Morogoro region led with our values, taking a "people with disabilities first" approach - prioritizing wellbeing and health while continuing to create many opportunities for advancement . I'm also proud of the significant investments we have made in empowering and protecting People with albinism and others with disabilities, expanding network and up skilling our people over the past two years.

These investments of advocacy have not only empowered our people to continue to utilize and enjoy their rights and dignity but have also enabled us to scale up our networks to new stakeholders, donors and onboard over 800 new beneficiaries across the region. We plan to open up our new regional reliable office and offices in every district by January 2022. While remote working has its benefits, we are committed to giving people with albinism the opportunity to come together, build strong relationships among themselves and other with disabilities and share ideas person-to-person in a workplace.

As we continue to navigate through these complex times, it is crucial for us to strengthen our commitment to be champions of equity, diversity and inclusion, and allies to PWA, PWDs and underrepresented communities to advocate for the rights and dignity and change to systemic issues that these People with Disabilities continue to encounter. As we look ahead, we have difficult but necessary work to do to embody our commitment to these principles. With the vision and support of our Board Members, incredible staff and volunteers, we look forward to building back better and more equitably for all DPOs in Morogoro region and beyond. Our ability to adapt to a sector in profound transformation will be strengthened by our commitment to keep empowering and connecting our team around the region and countrywide, while promoting talent and diversity.

A handwritten signature in blue ink that reads "Hassan Mikazi".

Hassan Mikazi
Regional Chairperson

2.0. EXECUTIVE SUMMARY

Tanzania albinism society TAS Morogoro region is seen as a key contributor to the regional welfare development of people with Albinism and people with disabilities in general. We advocated, empowered and supported people with Disabilities especially with albinism at maximum possible in the region where appropriate.

Our primary objectives for 2020–2021 were to enhance People with albinism and those with disabilities to Unlock local opportunities through better outreach practices and to develop extension personnel in ways that ensure effective advocacy communication. We accomplished this by establishing the Charter of demand as a tool on better approach in utilizing and accessing different opportunities for people with disabilities. This approach positions TAS Morogoro to deliver on more complete and long-term solutions towards accelerating welfare development opportunities for people with albinism.

Innovation and strategic partnerships remain critical to attaining the TAS Morogoro mission and to our role as an applied. Over the past year, we have realized new partnership opportunities to better position efforts to address challenges of our clients are facing. For example, significant time and resources have been secured form Donors like Voice Global, ADRA Tanzania, and many local stakeholders dedicated to raise awareness on the rights of people with albinism and with disabilities in the communities.

This Annual report highlights the progress and results achieved during 2020-2021. It provides an overview of implemented activities in the 7 districts across Morogoro region into targeted areas of engagement and explores some priority areas which TAS Morogoro has identified as having potential to grow to scale. This past fiscal years TAS Morogoro served over 694 people with albinism including children and adult living in our region by providing Sunscreen lotions, economic, health, education and social cycle supports. In advocating, lobbying, networking and coordinating.

TAS Morogoro empowered women and girls with albinism to take their position in leadership as a resulted in annual general meeting of 2021 whereas over 57 % of women took over different position in the organization.

Josephine Sayi
Regional executive Secretary

3.0. ABOUT TANZANIA ALBINISM SOCIETY

Tanzania Albinism Society (TAS) is a national non-profit making and Non-Governmental Organization dedicated to empower, protect and support people with albinism. The organization was established in 1978 by people with albinism and registered in 1980 with registration number S.A. 6150. The organization has its branches in Tanzania mainland, including in Morogoro region.

TAS Morogoro region was established as regional branch in 1996 but started working actively in 2009. TAS Morogoro works in 7 district councils in Morogoro region whereby it is serving over 1,183 people with Albinism and their families.

Vision

An inclusive society in which the rights and dignity of people with albinism are respected.

Mission

To contribute into the wellbeing and dignity of people with albinism through advocacy for their rights.

Under the support from Voice global TAS Morogoro is implementing Unlocking Local opportunities for people with disabilities phase II project with amount of EURO 49,972.90 for 18 months started from 1st November 2021 to 30th April 2023. Also, TAS Morogoro is supported by Adventist Development and Relief Agency (ADRA) and Standing Voice on Skin cancer prevention for people with albinism. These supports from our stakeholders helped TAS Morogoro to continue the one of the vocal and vibrant civil society organizations in Morogoro in advocating the rights of Persons with Albinism and those with disabilities in the region.

TAS Morogoro has extensive experience in coordinating partnership with different stakeholders. As one of the Disabled Persons Organization in the region, TAS Morogoro has built strong relationships with government authorities, Disabled Persons Organizations, NGOs/CSOs and private entities in the region. This put the organization in a pole position to succeed in the implementation of our activities.

4.0. ABOUT THIS REPORT

This report presents an overview and general performance in the year of 2020-2021; the years have been very successful despite many challenges from pandemic of COVID 19 that the organization faced. In all circumstances, these challenges are viewed to learn and grow new opportunities.

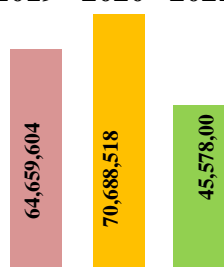

The successes have been measured through performance in departmental to organizational levels. With the ongoing projects of unlocking local opportunities for people with disabilities phase one and two Funded by Voice, distribution of sunscreen lotion over 500 people with albinism, Support for entrepreneurship and employment among people affected by albinism in Tanzania (SEEPA), Action for Reduction of Covid-19 Transmission among Persons With Albinism (ARCT) Supported by ADRA, Mobile clinics on skin cancer prevention for persons with albinism supported by Standing Voice and inclusive eye care (Boresha macho) supported by Sight Servers. Through these projects TAS Morogoro has been able to serve people with all kind of disabilities until 2021.

The year 2021 was colored by the regional election which 57.14 elected to take leadership position were women. Through this annual general meeting TAS Morogoro published its Regional strategic plan for 2022-2027, financial policy, Women and girls' protection policy, Human resource policy and Funding plan. These policies will help TAS Morogoro to meet its mission and vision by 2027.

TAS Morogoro as a forefront among DPOs in the region on advocacy, raising the voices of underserved PWDs and has built strong relationships with government authorities, Disabled Persons Organizations, NGOs/CSOs and private entities in the region. This put the organization in a pole position to succeed in the implementation of its plans, projects, and different activities.

ANNUAL INCOME

2019 2020 2021

Finally, TAS's finances and expenditures provides a general view of how the branch has fared in the year 2019 -2021 particularly considering its expanding to manage more programs. This section presents in detail about TAS Morogoro financial status and informs the leaders about its strategic position going forward. Through donation of funds, membership fees, Materials and technical supports from donors, stakeholders, members, and individuals who supported us for the year 2020-2021, it helped us to increase annual income as presented on the diagram above. In 2021 the annual income was less compared to previous years this is due to Covid 19 faced many our stakeholders failed to donate for TAS Morogoro. For the coming year 20222 we'll take different initiatives to increase the annual income.

5.0. PROGRAMMS IMPLEMENTATION

TAS Morogoro has eight departments which help the organization to perform its daily activities. Through these departments, many activities have been implemented in these two years as explain below;

5.1. Membership Coordination and Networking

5.1.1. Coordination

For the years of 2020-2021 the target was to register new members minimum 150, for the period of 24 months, the organization managed to register 86 new members, this made a total of 126 registered since 2019. As we membership organization we continue to welcome local, national and international communities to join with TAS as an active member.

TAS Morogoro managed to conduct different coordination to people with albinism with different stakeholders. Through coordination and Networking, TAS Morogoro managed to assure access to health to its members and other people with albinism its serve. We increased number of stakeholders who support TAS in health and entrepreneurship skills for Persons with albinism and their families.

In coordination, the organization managed to organize and arrange different activities including Miss International Albinism Awareness Day 2021 which is second time since 2019 to be implemented in Morogoro under international albinism awareness day. Also, TAS Morogoro

5.1.1.2. Networking

TAS Morogoro is strengthen its networks with different stakeholders for the purpose of looking for different opportunities that we can utilize. The organization succeeded to establish relations with different stakeholders that have benefits to the organization. Some of the networks that have been initiated are presented in the table below with their respective benefits.

Table 1. Networking

Network initiated with	Benefits / results
Government	Wellbeing of persons with Albinism and PWDs are increased
Voice Global	Support TAS Morogoro to empower PWDs to access and utilize opportunities created by various laws and policies.
ADRA Tanzania	Support PWA to prevent Skin cancer by giving them 3,000 sunscreen lotions, also support 150 PWA on entrepreneurship skills.
Standing Voice	Supported Mobile clinic in 9 districts of Morogoro region whereas 251 People with albinism have been reached and provided early skin cancer treatment. More than 502 os sunscreen lotion provide to 251 PWA and 251 sun protective hats were distributed to 251 PWA
Sight Servers	Under its inclusive eye care (Boresha Macho) project People with Albinism from 5 districts were supported to improve their low vision through provision of low vision devices. Also, they support our mobile clinics PWA in 5 five districts of Morogoro region.

Other Local stakeholders, Include ; Smart GIN, Samaki sports, Baraka Poly clinic, Mji kasoro Fast food, Katosho limited company and many individuals	They were supported Miss international Albinism awareness day 12 June 2021. Through their support community awareness increased about albinism and people with albinism. TAS Morogoro increased ambassadors and members who interested to support people with albinism.
Medias	Both local and national media they played their role to advocate the rights and dignity of people with albinism. Through advocacy session and airtime gave TAS Morogoro team increase awareness about albinism and disability in general.

6.0. PROJECTS IMPLEMENTED

6.1. Unlocking Local opportunity for people with disabilities project Phase I.

This project, unlocking local Opportunities for People Living with Disabilities in Morogoro, sake to advocate for the enabling environment for PWDs (at least 50% female) to identify, access and utilize local opportunities available for them. In doing so, we enforced implementation of the progressive laws that creates local opportunities and political spaces for PWDs. The focus of the project was to make sure that pro-PWDs laws with inclusion of gender equality that the country has enacted are enforced, implemented, and are known by PWDs so that they can utilize these opportunities to make a positive difference in their lives. It also focused on making sure that the laws are known by stakeholders (mainly private sector, public officials and political parties) so that they can understand, enforce and implement the said laws and policies for the best interest of PWDs in Morogoro, and indeed across the country.

The project planned to help TAS Morogoro to build its advocacy capacity so that in turn we can use the capacity gained to strengthen PWDs' networks in Morogoro region for enhancing their ability to demand for their created opportunities by pro-PWDs laws.

In implementing this project, TAS used several holistic strategies such as holding strategic meetings with decision and policy makers, trained 15 media personnel, strengthen the networks/organizations of PWDs in Morogoro, and prepared and released a charter of demands for PWDs for the general elections that the country held.

Overall Goals and Objectives of the project

The overall goal of the project was to increase the capacity of 5 Disabled Persons Organizations to advocate for the enabling environment for PWDs to identify, access and utilize local social, economic and political opportunities, at the regional and district levels created by different pieces of legislation and policies in the 7 districts of Morogoro region.

Activities of the project

Through this project we implemented the key five activities as listed below;

- i To prepare education materials in simple Swahili and disseminate to PWDs in order to increase their knowledge on civic education, economic and social opportunities available to them in their local environment
- ii Conducting capacity building training to 5 DPOs (with at least 50% representation of women living with disabilities) in Morogoro region to strengthen their abilities to advocate for the PWDs local opportunities.
- iii To train 15 journalists from Morogoro-on the opportunities for PWDs at the local level and facilitate them to publish articles on opportunities created by law for PWDs.
- iv hold strategic meetings with key government officials, social welfare officials and private sector in Morogoro region advocating for access to and availability of opportunities for PWDs
- v To prepare charter of demands for PWDs in Morogoro and submit to regional, district and Ministry responsible for PWDs

Project achievements

As a result of Voice Global support to TAS Morogoro's Unlocking local opportunities for people living with disabilities (PWDs) project, between 1st of October 2019 to 30th of September 2020 we have been able improve enabling environment for PWDs to identify, access and utilize social, economic and political opportunities in the seven districts (Morogoro Municipal, Morogoro DC, Kilosa, Gairo, Mvomero, Mlimba/Kilombero and Ifakara Town council) of Morogoro region. The key achievements realized through the project are:

- 32 PWDs (15 females and 17 males) from five DPOs have increased their knowledge on social, economic, and political opportunities available in pro-PWDs laws, with many being able to access and utilize them.
- 71 reports published on PWDs issues in the region by journalists from seven districts in the region because of increased knowledge and skills in reporting.
- Increased social, political, and economic support and services to PWDs in accessing and utilizing local opportunities resulting from strengthened relationships between TAS Morogoro, government authorities and other four DPOs from the seven districts.
- Charter of demands has been created and 100 copies distributed to DPOs, government offices in all districts and ministry in advocating for enabling environment for PWDs.

Journalists have been at the forefront in addressing issues of PWDs through media reporting and publications in the region. This has helped in changing the perspective of community towards PWDs. Formation of PWDs committees at the regional and all local government levels which was indicated by Persons with Disabilities Act of 2010. Despite the Act directing formation of these committees by the start of the project there was only regional committee, however through engaging social welfare officers from all districts in our strategic meetings we have managed to form new PWDs committees in all nine districts

(Morogoro Municipal, Morogoro DC, Kilosa, Gairo, Mvomero, Malinyi, Ulanga, Mlimba, and Ifakara Town council) and their villages in the region.

Charter of demands created detailing opportunities available from various pro-PWDs laws and policies, demanding political, social, and economic opportunities. This has been used as a blueprint for all DPOs in the region to capacitate their members for them to understand and demand them. 100 copies were distributed to key targets. In turn there have been an increasing number of PWDs groups accessing 2% of district's loan schemes.

Through this project many PWDs have seen social, economic, and political improvement because of Voice support, which would have not been possible without this support. Many PWDs are now aware of their rights and can demand them by using pro-PWDs laws. TAS Morogoro secretary Mr. Yassin Kasiga said "TAS Morogoro are very grateful to Voice for this support as we were able to achieve our project objectives in improving the lives of PWDs in Morogoro. If this partnership continues, we are sure many PWDs will benefit from these progressive laws in few years to come. At TAS we are very proud of being a Voice team."

Political participation and involvement of PWDs in this year's general election compared to previous elections. In Tanzania, 120 PWDs showed interests and contested within their political parties to compete for both parliament and ward candidacy. In Morogoro region, 17 PWDs (12 females and 5 males) contested within their parties, however, none of them was elected to participate in either parliament or ward candidacy. This has been mainly due to negative perspective from community members towards PWDs to lead or hold position of decision making. On the other positives, National Election committee has improved the infrastructure for PWDs to fully participate in the program. TAS Morogoro, other four DPOs and other stakeholders were invited by NEC in the region to provide insights on the engagement of PWDs in this year's election.

Mobilization of PWDs from DPOs to access 2% of the district loan reserved in the region has been trending. To date since the start of the project, 75 groups of PWDs have received district council loans. Integrating different stakeholders from the regional to district level and the ministry has enabled us to strengthen existing or creating new relations with social welfare officers. For example, Morogoro Regional commissioner Hon. Loata Ole Sanare has directed social welfare officers to give priority to PWDs who meet loan requirements and ensure that they receive loans.

During project implementation we conducted a variety of project activities, throughout the project we have reached a total of 89 beneficiaries with 44 females and 45 males. 16 are persons with albinism, 8 deaf, 17 with physical disability and 13, 3 ASBAHT and 32 non-disabled.

One of participant of DPOs training presenting Participants of DPOs training on group photo His opinion on Opportunities for PWDs created.

6.2. Piloting cryosurgery and mobile phone-based software for early skin cancer detection, treatment and care among people with albinism (The Cryosurgery Project)

This project's sake to reduce death due to skin cancer among people living with albinism through increase in early skin cancer detection and treatment, awareness information on importance's of early skin cancer detection and hygiene.

The project is being implemented in Morogoro region, in the districts of Kilombero, Ifakara town, Morogoro Municipal, Mvumero and Kilosa with the intention of reaching approximately 600 beneficiaries: 290 PWA direct beneficiaries, 150 PWA households and 160 community members indirect beneficiaries through media, open campaigns and information, education and communication (IEC) materials.

The Direct beneficiaries in this project are assisted with protective gears i.e., caps, sunscreen lotions and sunglasses, skin cancer screening is done to all primary beneficiaries and those that are found with pre-cancer cells are treated though cryotherapy which is using liquid nitrogen, awareness information on how to cover dress and cover themselves from sun burns is also part of the mobile clinic. This project is innovative in that, it pilots the use of the modern technology (Cryosurgery) to improve access to quality and effective skin cancer prevention, care, and support to persons living with albinism. The innovation introduces Cryosurgery technology, which uses liquid nitrogen within access to local communities of Morogoro to remove pre-cancerous lesions from the skin of people with albinism. The liquid nitrogen operative system and the argon–helium surgical system represent two important stages of modern cryosurgery.

Description of the Intervention & Project Performance

At the beginning of 2020, Tanzania Albinism Society - Morogoro Region was successfully acquired a pilot project from a Non-governmental organization known as Adventists Development and Relief Agency (ADRA Tanzania); this project was being carried out in partnership with TAS Morogoro and ADRA Tanzania with cooperation from Morogoro regional government. This project seeks to reduce death due to skin cancer among people living with albinism through increase in early skin cancer detection and treatment, awareness information on importance's of early skin cancer detection and hygiene.

The project was divided into two phases of implementation, with the first phase in Kilombero district, Ifakara Town and Morogoro Municipal. The second phase was implemented in Mvomero and Kilosa districts. As usual, after each implementation of the activity, the team involved in the implementation sits together and conducts an evaluation meeting with the aim of identifying the challenges and successes achieved during the implementation.

Medical results

This project involved Community dermatologists (Dr. Benedict Bigawa and Dr. Janeth Peter) from Morogoro referral regional hospital who conducted medical treatment to people with albinism attended the clinics. Also, the project involved social welfare officers from each district to attend for supervision of each activity conducted during the project implementation.

The Direct beneficiaries were provided with basic protective gears e.g., sunscreen lotion, sunglasses and round caps with cloths covering to protect their necks from the direct sun. For some who presented symptoms on examination, received instant treatment by cryosurgery method. Protective gears were provided to the 98 direct beneficiaries who attended the mobile clinics.

The followings are the diagnostic report from doctors involved in the implementation of the cryosurgery project as shown in the table. *Number 1 below*

Table 1. Medical results for Kilombero District (Ifakara, Mngeta and Morogoro Municipal)

Kilombero	Total clients	Skin cancer	Xeroderma Pigmentation	Solar keratosis	Erythema (Sun burn)	Other skin condition	Crayothe rapy	Refer ral	Nor mal
Kilombero District	48	5	1	12	39	2	12	6	8
Morogoro Municipal	50	0	0	3	37	4	3	0	13

- 10 % of clients seen in Kilombero had cancer and were referred for further management
- 25% of clients at Kilombero had solar keratosis (pre-malignant cells) and received crayotherapy treatment.
- 81% of clients had sun burn (Erthema) clients living in remote areas are more affected sun complications.

Table2: Skin cancer screening to people with albinism Mvomero district done on 24th to 28th August 2020.

Medical results

Project achievement

Through the implementation of the project, we achieved to meet and treat 255 people with albinism in both 5 districts as described below;

Morogoro Municipal	Mvomero	Kilosa	Mlimba/ kilomberro	Ifakara town	TOTAL
50	86	71	12	36	255

The Community dermatologists i.e., Dr. Benedict Bigawa and Dr. Janeth Peter were very professional, as they were even willing to go an extra mile to archive the planned activities. They also exhibited a high level of customer care as they are used to working with person with albinism in the country. They are actually trained to work with PWAs. This for TAS Morogoro and ADRA is a high bonus achievement, because we didn't anticipate that these Community dermatologists would love their job and show extra mile cooperation to the staff and the beneficiaries.

The other aspect that went well was the screening session. Beneficiaries really showed up even though some days it was raining and others had to use motorcycles to come to the mobile clinic sites. It showed how needy and yearning they were for the service. The effort by TAS Morogoro in providing information through media and social welfare officers was well planned, and this was done quite quickly.

Field planning / review (evaluation) meetings helped the field staff and TAS to reflect on lessons and provide solutions. These were held every day and there was a grand one at the end of the exercise which involved TAS Head Quarter representatives. During the early stages of the project the TAS staff utilized another project's vehicle (own vehicle) due to heavy rain, so that helped out the pre-implementation process. However, after this, ADRA project staff used project vehicle to get regular reports and plans that helped the project coordinator see where activities were, and helped him to make necessary amendments.

The government accepted and appreciated the project in a positive way, those government officials from Kilombero/Mlimba, Ifakara, Morogoro Municipal, Kilosa and Mvomero Districts Council showed up a strong cooperation to facilitators.

The beneficiaries (PWA) responded well, and this resulted reach beyond the expectations. At the beginning the plan was to attend 100 clients but the number became 255 clients.

Dermatologists (Dr. Bigawa and Dr. Janeth from Morogoro Regional Referral Hospital) educating People with Albinism (PWA) on how to care for their skin to protect themselves from Skin Cancer in Kilosa District.

For the coming year TAS Morogoro will implement the following projects;

7.1. Support for entrepreneurship and employment among people affected by albinism in Tanzania phase two.

This project is continuation of phase one funded by ADRA, in this upcoming phase two TAS and ADRA planned to implement the following major activities;

- Training and Mentoring 60 Young Persons with Albinism (YPWA) enabling them to acquire knowledge and skills that will help them compete for available jobs in their communities.
- Coordination of apprenticeships for 20 people from Morogoro under the YPWA program from. Short apprenticeships (1-3 months) with relevant and market-based professional skills in cooperation with the Small Industry Development Organization (SIDO).

7.2. Action for Reduction of Covid-19 Transmission among Persons With Albinism(ARCT-Morogoro)

The aim of this project is to promote control measures against COVID-19 transmission and support 100 households of persons with albinism in Morogoro Municipal by facilitating backyard garden initiatives to reduce their exposure to COVID-19, this Concept aims to extend the same component of food security and access to nutritious foods by 100 more households of persons with albinism in Morogoro Municipality with support from ADRA Sweden. Under this Project TAS Morogoro and ADRA will implement the following major activities;

- Mobilization and identification of 100 most vulnerable households of women or children with albinism to benefit from the project. This exercise will be done through community meetings involving local authorities, Regional leaders of Tanzania Albinism Society (TAS), and Adventist Women Ministries Department which has already being doing a similar project in the area. This will include sensitization on COVID-19 pandemic.
- Supporting the selected households to form working groups of at least 20 members each through which they will be self-governed and address issues of gender and engagement with local authorities. The project will enable the groups to create linkages with their Community Development Officers as well as Ward executives as supportive structures.
- Facilitating training of the selected 100 households (in groups of 20) on climate smart agriculture focused on ensuring that each targeted household establishes a kitchen garden using good agricultural practices and appropriate technologies.

The project will enable 100 PWA in a high-risk region of Morogoro to regain access to nutritious foods amidst COVID-19 pandemic as well as correct COVID-19 prevention messages. With 4 members on average per household, the project will directly impact 400 people majority (70%) being children and women. It is hoped however that each targeted household, will influence at least 5 other households in the neighbourhood with the gardening initiative during the intervention period.

7.3. Inclusion of All People with Disabilities for Decent Work and Dignity

This is a three-months project which aimed to promote inclusive employment and equal access to financial loans and security funds to People with Disabilities. The project will be implemented in Morogoro and funded by Internews under its project of Inclusive Media.

Under this project we expect, increased public awareness about inclusive employment opportunities and new changes in the regulations in accessing interest-free loan from the district councils in Morogoro region; Informed People with Disabilities (PWDs) on policies and practices that are addressing existing barriers and discrimination to PWDs in accessing the interest-free loans from the district council; And Enhanced confidence and build capacity to PWDs to engage in decision making and accessing available employment opportunities, funds and initiate new or improve existing businesses.

Through this project TAS Morogoro planned to implement the following key activities by March to June 2022;

- Conduct radio and TV sessions covering two main topics including inclusive employment opportunity, pro-PWDs progressive laws and policies, and disability rights awareness.
- Conduct social media campaign promoting inclusive employment for PWDs in Morogoro region and Utilizing TAS media platforms.
- Conduct a regional dialogue forum with media journalists, DPOs representatives and employers from private companies, NGOs and government representatives from Morogoro region on inclusive employment for PWDs in the region.

Through implementing this project, we expect to have a strengthened environment that support and value the benefit of PWDs (with at least 50% female) competing on employment opportunities and owned businesses in the Morogoro region. Also, PWDs that have benefited from the project, will self-employ or employ others and inspire other PWDs to access loans and establish own enterprises. Through their own DPOs participants will be able to learn and share the skills and knowledge that they have learned from the project.

For the coming year 2022 TAS Morogoro will take different initiatives to get more partners who will support our works, projects and activities which we plan to implement as explain in details in our five strategic plans. We welcome everyone in the world to join and being part of us in supporting and empowering people with albinism and other with disabilities.

8.0. EVENTS

In the year of 2020-2021 TAS Morogoro implemented events for the purpose of advocacy on the rights and dignity of persons with albinism and people with disabilities in general as listed as listed below some of conducted events;

8.1. International albinism awareness day 13 June

In 2020 we did not conduct this event physically due to the challenges of Covid 19 pandemic, the event conducted online through social media and zoom meetings used to

spread the message and voices about albinism. Also, the organization used the week of IAAD to distribute sunscreen lotions to people with albinism and awareness creation on skin cancer prevention.

In 2021 TAS Morogoro celebrated the IAAD by doing different activities including, Sunscreen lotion distribution to 500 people with albinism all over the region. We thank ADRA Tanzania for its donation of 3,000 sunscreen lotions which distributed in each district of Morogoro region. Also, we conducted Mobile clinics in five district councils which are Morogoro Municipal, Morogoro DC, Mvomero, Kilosa and Gailo. These Mobile Clinics supported by Morogoro referral hospital and Sight severers.

The International albinism awareness day for 2021 was colored by Miss IAAD 2021 event conducted in OASIS hotel Under TAS Morogoro. The contest figuratively brings together inclusive youth competitors in both beauty aspects and a holistic welfare insight to the nation and the world outside. The contest under The TAS Morogoro region is to build inclusive society through Modelling, Fashion and Talent among young girls.

TAS Morogoro region has now set up strict ethical framework that stakeholders have to adhere to.

The contest has redefined new objectives to be achieved in the short term and long run-in order to measurably impact the contestants and the country at large. Our goal is to select the most elegant, Impressive, and determined young girl, who will proudly carry Tanzania's flag on albinism advocacy through Modeling and fashion.

<p>MISSION</p> <p><i>Our mission is to build inclusive society whereby persons with Albinism are free to interact with other individual without albinism in entertainments, talents and arts</i></p>	<p>VISION</p> <p><i>To promote the rights and dignity of persons with albinism, display their arts, encourage their participation in social, economic and political work as well as boosting their confidence</i></p>	<p>Our objectives</p> <ol style="list-style-type: none"> 1. . Developing and promoting talents with moral character and insist the sense of care and responsibility to community 2. To enable and inspire people with Albinism that whenever they are, they should be aware of their needs and comfortable with their surrounding so that their goals to be met on both sides. 3. Enhance socialization between Albinism Society that they can help each other and engage with those who are less fortunate in society.
---	--	---

15 inclusive young girls’ contestants were participated in this beautiful event and the Miss Selina Alex Marcel won the crown and she implementing her project “***A change of skin tone never change an individual***” this project aim to support school children with albinism to get their basic school needs and raise awareness about albinism to community . She implemented different activities in supporting people with albinism. One of her big activities , she paid visitation to Mazinyung Primary in Kilosa district and support school supplies to 96 pupils with disabilities including those with albinism, blind and deaf . She is a good ambassador of TAS and people with albinism.

TAS Morogoro thanks all our stakeholders who always support this event to happen in every international albinism awareness day since 2019. Our plan is to do better every year.

Some photos of Miss IAAD 2021 event

Miss IAAD 2021, Selina

Apart from IAAD TAS Morogoro celebrated International Disability Day 3rd December 2021 in Morogoro municipal, Dodoma and Tanga where by TAS Morogoro representatives were attended and participated this day. In Morogoro Municipal TAS was celebrating by sharing IECs materials about disability and distributed sunscreen lotions, Harts and proving skin and eye care to 85 people with albinism who attended in the event. This event was supported by Voice global under TAS project implementing “Unlocking local opportunities for PWDs”, Standing Voice under its program of Mobile clinics and Sight severers through its

project “Inclusive eye care (Boresha Macho)” . In this event TAS Morogoro cooperated with Federation of Disabled organization 9SHIVYAWATA) Morogoro region.

In Dodoma a chairperson Hassan Mikazi represented TAS Morogoro to Internews organization which conducted the event in Dodoma and invited DPOs that implementing Inclusive media project. Through this event, different topics about disability especially inclusive media and employment for PWDs were discussed by participants from DPOs and Media. In Tanga region where this day was celebrated nationally, TAS Morogoro was represented by TAS Kilombero district chairperson Mr. Rashid Namiuya. The event helped TAS Morogoro to connect with other DPOs and stakeholders to raise the voices of the voiceless.

9.0. GENERAL CHALLENGES

Table Presents challenges faced by TAS Morogoro in 2020-2021 and ways we took

Challenge	Effects	Initiatives
Limited office space	<p>Affects general operations of the organization losing organization credibility</p> <ul style="list-style-type: none"> • No privacy • Uncomfortable working environment • Failure to serve clients efficiently 	<p>Under Voice Supports and others stakeholders TAS will Use the administration cost to rent new reliable house for office use by January 2022 and TAS will fundraise money to buy piece of land for office contraction by 2027</p>
Financial constrains	<ul style="list-style-type: none"> • Hinders smooth implementation of organization activities • Fail to retain and employ professional personnel and volunteers for TAS to progress. 	<ul style="list-style-type: none"> • Projects proposal write ups. • Initiate networks and lobbying with several stakeholders. • Sharing organization plan with stakeholders to secure their support and influence members to be active in contributing membership fees
Coivid 19 pandemic	<ul style="list-style-type: none"> • Failure to reach more people. • Stakeholders did not support much to our works 	<p>Different online programs of awareness building on Covid 19 preventions to PWDs</p>

10.0. CONCLUSION

Regardless challenges of Covid 19 and other barriers that we faced as organization but our works were impacted positively to people with albinism and many with disabilities in Morogoro region and beyond. We reached many people to access our services weather direct or indirect. The good relationship that we have with donors, government, stakeholders and community helped us to support and empower many people with albinism and their families to improve their social and economic welfare. TAS Morogoro is highly appreciated with everyone who always supports our works and makes us to reach our vision.

INDEPENDENT AUDITOR'S REPORT

To : TANZANIA ALBINISM SOCIETY

Report on the Audit of the Financial Statements

Introduction

We have audited the financial statements of TANZANIA ALBINISM SOCIETY, which comprise the statement of financial position as at 31st Dec 2020, and the statement of comprehensive income, statement of changes in capital and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the business as at 31st Dec 2020, and its financial performance and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the company financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the business in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements of the National Board of Accountants and Auditors (NBAA). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the NBAA.

**Proprietor's Responsibilities for the Preparation of the business
Financial Statements**

The Proprietor is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control, as proprietor determines necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

**Auditor's Responsibilities for the Audit of the business
Financial Statements**

Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform our audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the business internal control.

An audit also includes evaluating the appropriateness of the Proprietor's use of the going concern basis of accounting, accounting policies used and the reasonableness of accounting estimates made by TANZANIA ALBINISM SOCIETY, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT

To : TANZANIA ALBINISM SOCIETY

Report on the Audit of the Financial Statements

Introduction

We have audited the financial statements of TANZANIA ALBINISM SOCIETY, which comprise the statement of financial position as at 31st Dec 2021, and the statement of comprehensive income, statement of changes in capital and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the business as at 31st Dec 2021, and its financial performance and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the company financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the business in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements of the National Board of Accountants and Auditors (NBAA). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the NBAA.

**Proprietor's Responsibilities for the Preparation of the business
Financial Statements**

The Proprietor is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control, as proprietor determines necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

**Auditor's Responsibilities for the Audit of the business
Financial Statements**

Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform our audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the business internal control.

An audit also includes evaluating the appropriateness of the Proprietor's use of the going concern basis of accounting, accounting policies used and the reasonableness of accounting estimates made by TANZANIA ALBINISM SOCIETY, as well as evaluating the overall presentation of the financial statements.

NOTE TO ACCOUNTS FOR THE PERIOD ENDED 31/12/2021

NOTE 1.0 SUMMARY OF ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the year presented, unless otherwise stated.

1.1 Basic of preparation

The financial statements of **TANZANIA ALBINISM SOCIETY** have been prepared in accordance with international Financial Reporting Standard. The financial statements have been prepared under historical cost convention.

The preparation of financial statement in conformity with IFRS requires the use of certain accounting estimates. It also requires management to exercise its judgment in the process of applying the private organization accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are separately disclosed in a note.

1.2 Property furniture and equipment depreciation

Depreciation of asset is calculated by using the straight line methods to allocate their costs or revalued amounts to their residual values over their estimated useful lives, as follows:

Assets Depreciation	Rates per annum
Office table	20%
Office chair	20%
Shelf	20%
Printer	20%
Desktop	20%
Laptop	20%
Smartphone	20%

1.3 Provision for Bad and Doubtful Debts

The provision for bad doubtful debts is made in the financial statements for all specifically known to be doubtful of recovery. Bad debts are written off after all efforts of collecting them have failed.

1.4 Stock and Stores

Stocks are valued at the lower of cost and net realizable value. Cost is determined on a first in first out basis. Any obsolete /damaged items are provided in full in the year they are detected.
